Toamasina, Madagascar
LinkedIn : Mahazoasy Heritiana Judicaël | GitHub: mahazoasy | Portfolio: https://mahazoasy-heritiana.vercel.app

PROFESSIONAL PROFILE

Full-Stack Web Developer, recently graduated in Software Engineering. I design modern web and mobile applications using JavaScript/TypeScript stack (React, Next.js, React Native, Node.js). I also master the creation of REST APIs, database management, and containerization with Docker. Highly motivated to apply my skills to concrete projects and grow within a dynamic team.

PROFESSIONAL EXPERIENCE

Volunteer Developer | HELP Madagascar (NGO) | Aug 2026 – Present
Toamasina, Madagascar | Next.js, TypeScript, Tailwind CSS, Supabase, Vercel

- Redesign of a trilingual institutional website, optimized for low-bandwidth connections.
- Development of a secure online donation engine with local payment integration.
- Creation of a back-office to empower the local team.

Full-Stack Developer Intern | SLife Tracker SARL | Jul 2025 – Oct 2025
Antananarivo, Madagascar | JavaScript, TypeScript, Angular, React.js, NestJS, Express

- Development of a secure web application in a team of two (authentication, roles, APIs).
- REST API integration and authentication security.
- Agile project management via Atlassian (Jira, Confluence) and introduction to the project manager role.

Full-Stack Developer (Capstone Project) | UAZ | Dec 2025 – Jun 2026
Antsirabe, Madagascar | Angular, Kotlin, NestJS, MongoDB, Docker, Stripe

- Design and development of AllMada, an e-commerce marketplace (Web & Mobile).
- Backend development (REST APIs), dual administration (platform/sellers), and Stripe integration.
- Application of Agile/Scrum principles, UML modeling, and Docker containerization.

ACADEMIC / PERSONAL PROJECTS

Invisible Queue | Mobile Developer | 2026
Technologies: React Native, Expo, Supabase, TypeScript

- Mobile application for virtual queue management with geolocation and real-time features.

SonicFlow — Android Audio Player | Mobile Developer | 2026
Technologies: Kotlin, Jetpack Compose, Media3, Room, Hilt

- Background playback, playlist management, and interactive waveform visualization.

EDUCATION

Bachelor's degree in computer science — With Honors (Assez Bien) | Université Adventiste Zurcher (UAZ) | 2023 – 2026
Track: Software Engineering & Information Systems (Network Administration studied).

Scientific Baccalaureate (Series D) | Lycée Privé Adventiste Julien Ramamonjisoa (LPAJR) | 2023

TECHNICAL SKILLS

- **Programming Languages:** Java, PHP, JavaScript, TypeScript, C#, C++, Kotlin
- **Frameworks / Libraries:** Next.js, Angular, Vue.js, React.js, Node.js, Laravel, NestJS, Express.js, React Native, Jetpack Compose, Android Jetpack
- **Databases:** MongoDB, PostgreSQL, MySQL, SQLite
- **Tools:** Git, GitHub, VS Code, Android Studio, Docker, Docker Compose, Swagger
- **Architecture & Methods:** API REST, MVVM, POO

LANGUAGES

Malagasy: Native | French: Fluent | English: Intermediate

INTERESTS

- **Tech & Networks:** Technology watch, Project development, Network Administration.
- **Personal:** Swimming, Reading, Volunteering & Social engagement.
